Tasmanian Expeditions

Tasmanian Expeditions has been in continuous operation for over 30 years. We offer economical, reliable, environmentally friendly, small group, fully inclusive adventure holidays to some of the most beautiful and pristine parts of Tasmania. Our trips cater to people from many walks of life, age groups

and motivations. Tasmanian Expeditions offers more than 30 tailored itineraries that incorporate trekking, walking, rafting, cycling and climbing throughout Tasmania and some of its offshore islands.

The Blue Tier and Bay of Fires

This spectacular six day tour combines the rare and varied beauty of Tasmania's northeast. The Blue Tier is a mountain plateau that once swarmed with tin miners. Their old pack trails wind through remnant and regenerated rainforest passing by rusted relics of the past. The Bay of Fires beaches are some of the most pristine in the world with their white sands contrasting with the pink granite rocks and aquamarine waters of the Tasman Sea.

Beginning in Launceston we drive northeast to discover this magnificent region. Six days allows us to encompass a variety of terrain and attractions, which is covered in easy and moderate day walks. It allows us time to appreciate places such as Mt. Poimena, Ralph Falls, St Columba Falls and the Eddystone Point Lighthouse.

Our experienced guides will bring the area alive with their local knowledge and enthusiasm for the Tasmanian Wilderness.

Special Note

The above itinerary is to be taken as a guide only. Inclement weather, group fitness and a number of other factors may influence our planned itinerary causing delays and variations. The Tasmanian Expeditions group leader reserves the right to make modifications and or alterations to the trips itinerary in the best interests of all involved.

What you are required to carry

The Blue Tier and Bay of Fires Tour offers a series of day walks. During the day walks you will need to carry a small backpack. It needs to contain water bottles, warm and waterproof clothing, sun protection cream and clothing, your camera and a snack that your guide may offer before departing the bus. It needs to be at least 25-40 Litre capacity and should not weigh more than about 7 kg max once packed.

Accommodation on tour

The first two nights of the Blue Tier and Bay of Fires Tour will be spent at 'The Pub in the Paddock' at Pyengana. There are 9 bedrooms available at the property (double, twin and/or triple share). The remaining three nights of the tour will be spent at Binalong Bay in large rental holiday homes that are booked many months in advance. Larger groups will be divided up between two houses that are close to one another. Most groups are made up of a mixture of single participants and couples. If you are travelling alone we will try to accommodate you with other people of the same sex and this usually sorts itself out naturally.

Trip Preparation

As with any active holiday, the fitter you are for the activity, the more the attention moves from looking at your feet to experiencing your surrounds. Your guides can easily make this trip as challenging or as gentle as you need and want it to be. Fitness enables you to do more, see more or simply relax more. The best way to train for an active holiday is to simulate the activity you will be undertaking on the trip. Train for uneven terrain by finding a rough narrow bush track, even just your local park or sports field, go for a lovely long walk in your trekking boots (nothing spoils a trekking holiday quite as much as poor fitting boots!) - splash in the puddles or kick up the dust! Prepare yourself for adverse conditions by getting out there at a prearranged time despite rain, hail or shine - maybe try parking a few kilometers from work and walking there and back. Different conditions prompt you to see different things and your routine walk can be a whole new experience from under a rain jacket hood. Enjoy your training - include friends and family, set some goals, note your progress, explore.

Important Note about Weather.

Please consider while you are packing your clothing & gear:

Tasmania is a remarkable little island sculpted and shaped by the 'Roaring 40s'. Tassie's precious and unique qualities are a result of a wind band at 40 degrees south which travels across vast oceans right around from South America and Antarctica. The very elements that make it such an incredible place also make it hard for human habitation. We must adapt to discover the beauties of this place and we can do that by being well equipped against the prevailing forces.

Tasmania's alpine regions routinely experience heavy precipitation and temperatures below freezing, even in summer. For your own safety and comfort, you will need to be adequately equipped with appropriate warm and waterproof clothing that will keep you warm even when wet. This means synthetic thermals, wool or fleece - NOT cotton as when wet, cotton actually robs the body of warmth. In the wet, cold conditions often experienced around Cradle Mountain, this can drastically affect your comfort and even your safety.
